

# Press Release

## Dreambook®

Athens, 07.11.2011

If you've seen fish  
playing with dice,  
a broom running  
or raining ice,  
it was just a dream  
it won't happen again,  
draw it or write it down  
so it's always there.

It was a dream that inspired the creation of the **Dreambook®**,  
on which one may narrate or draw the dreams one sees at night.

This might even make them come true.

The **Dreambook®** is addressed to all, regardless of gender or age,  
is bilingual (Greek-English), has 160 pages and a hard cover.
